PROFESSIONAL SUMMARY

Frontend Engineer with over 5 years of experience specializing in Angular and TypeScript. Skilled in performance optimization, microfrontend architecture, and modernizing legacy codebases.

Demonstrated success in mentoring teams and delivering scalable, high-performance platforms across healthcare, POS, and e-learning industries. Adept at improving mobile performance metrics, implementing architectural best practices, and driving innovation through modern web technologies.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, TypeScript, Angular (v2–18), React, Next.js, Node.js

State Management & APIs: NgRx, RxJS, Signals, Redux, Apollo Client, REST, GraphQL

UI/UX & Styling: Tailwind CSS, Material UI, PrimeNG, SASS, Angular Material

Testing & DevOps: Jest, Cypress, Git, CI/CD, Webpack, Vercel, Firebase

PROFESSIONAL EXPERIENCE

Frontend Developer | e& UAE

July 2025 – Present

- Led end-to-end development of critical features from requirements analysis to deployment.
- Integrated microfrontend modules into a monolithic codebase, enhancing scalability and maintainability.
- Optimized performance by refactoring legacy components and enforcing architectural standards.

Frontend Developer | Meem Development

Feb 2024 – July 2025

- Supervised and mentored two junior developers, standardizing code reviews via GitHub PR templates.
- Improved mobile performance scores from 4 to 80 through advanced Angular optimization techniques.
- Directed framework migration from Angular v17 to v18, ensuring smooth transition and minimal downtime.
- Reduced bundle size by replacing ngx-translate with Angular's native Internationalization system.

Frontend Developer | ComRec Solutions

Mar 2021 – Feb 2024

- Developed a custom patient dashboard using Chart.js and a dynamic reporting tool for non-technical users.
- Migrated version control from SVN to GitHub, improving collaboration and workflow efficiency.

- Built revenue and volume analytics tools to support data-driven decision-making.
- Established a scalable design system and reusable CSS component library.

Frontend Developer | Dinexpos

Feb 2020 – Mar 2021

- Developed core POS modules including Inventory Management and Order Tracking using Angular.
 - Integrated backend APIs to enable real-time data synchronization for restaurant operations.
-

KEY PROJECTS

- **Custom AI Agent:** Developed a TypeScript-based AI agent with local LLM integration and persistent memory.
 - **Collaborative Doc AI:** Built a real-time document editing platform using Next.js 14 and semantic search.
 - **Menuz API:** Created an OCR-powered API converting menu images into structured JSON with 70–99% accuracy.
-

EDUCATION & LANGUAGES

Bachelor of Oriental Languages | Mansoura University

Languages: Arabic (Native), English (Fluent)
