

Mohammed Rezk

Software engineer | Application Developer

mo.rezk06@gmail.com | +201012917701 | Egypt, Cairo | [portfolio](#)

Professional summary

Software engineer with over **7+** years of experience specializing in Frontend. Experienced in the telecommunications industry through roles at leading companies such as **e& UAE** and **SIGMA EMEA**. Skilled in **performance optimization**, **microfrontend** architecture, and modernizing legacy codebases. Demonstrated success in delivering scalable, high-performance platforms across **telecom**, **healthcare**, **POS**, and **e-learning** industries. Adept at mentoring teams, improving performance metrics, implementing architectural best practices, and building modern web solutions.

Professional experience

Senior Frontend developer | **Sigma EMEA**

jan 2026 – Present

- Measured and applied perf wins (CSS purge , lazy-load, Angular prod tweaks) established a Lighthouse measurement harness.
- Led a multi-phase mobile-first redesign and utility-class migration, restructuring responsive breakpoints across 7 tiers to improve consistency, maintainability, and mobile usability.
- Built a Claude skill that automates the QA workflow by ingesting Jira ticket links, retrieving requirements and context through Jira MCP, generating a plan to solve it, and asking for developer approval before execution. Once approved, it creates the required changes, commits them, and automatically resolving Jira ticket.

Senior Frontend developer | **E& UAE**

July 2025 – jan 2026

- Led end-to-end development of critical features from requirements analysis to deployment.
- Integrated microfrontend modules into a monolithic codebase, enhancing scalability and maintainability.
- Optimized performance by refactoring legacy components and enforcing architectural standards

Senior Frontend developer | **Meem Development**

Feb 2024 – July 2025

- Supervised and mentored junior developers
- standardizing code reviews via GitHub PR templates.
- Improved mobile performance scores from 4 to 80 through advanced Angular optimization techniques.
- Directed framework migration from Angular v17 to v18, ensuring smooth transition and minimal downtime.
- Reduced bundle size by replacing ngx-translate with Angular's native Internationalization system

Mid level Frontend Developer | **ComRec Solutions**

Mar 2021 – Feb 2024

- Established a scalable design system and reusable CSS component library.
- Developed a custom patient dashboard using Chart.js and a dynamic reporting tool for nontechnical users.
- Migrated version control from SVN to GitHub, improving collaboration and workflow efficiency.
- Built revenue and volume analytics tools to support data-driven decision-making.
- Built a text editor using Summernote library

Junior Frontend Developer | **Dinexpos**

Feb 2020 – Mar 2021

- Developed core POS modules including Inventory Management and Order Tracking using Angular.
- Integrated backend APIs to enable real-time data synchronization for restaurant operations.

Professional skills

Javascript – Typescript – HTML – CSS – SCSS – LESS – Angular – Micro Frontend – React – NextJs – NgRx – RxJS – Angular Signals – Tailwind – Bootstrap – Matrial UI – PrimeNG – Angular Material – Node js – MongoDB – Claude eco system – Java – Spring boot – Microservices – SQL – PostgreSQL – MySQL – Agentic Ai

Licenses & certifications

[Spring Framework for Java Development](#), [Building Scalable Java Microservices with Spring Boot and Spring Cloud](#), [Version Control](#), [Responsive web Design](#), [introduction to database](#), [AI Fluency: Framework & Foundations](#), [Claude Code in Action](#), [McKinsey.org Forward Program](#), [English Certificate C2 Proficient](#)

Education & Languages

Bachelor Degree From Mansoura University | Arabic (Native), English (Fluent)
